

Seminar & Discussion
2 March 13:00-16:00

EAST ASIA BIOMASS TOWN CONCEPT PROMOTION PROJECT

East Asia Biomass Town Workshop

Tokyo, Japan, 23 February – 3
March 2009

Presentation & Discussion

In this Final Session, we aim to:

- Discuss the general vision of biomass town models in Thailand and Vietnam (hypothesis on the where, what, how, and who of the Thai/Vietnam visions of Biomass Town Plan)
- Formulate a tentative schedule for the next 2 years of the project

We do so by:

- 1. Presentation 2:** Explain the process and schedule of creating Biomass Towns in Japan
- 2. Discussion:** Discuss among members of each countries the vision of Biomass Town Plan
- 3. Sharing:** Share the visions of Biomass Town Plan vision by each countries
- 4. Planning:** Draft tentative project implementation schedule for the next 2 years

1. Seminar 2

- Introduction of Japanese Biomass Town process and schedule
 - Mr. Nemoto, EX Corporation

2. Discussion <1>

What does the Thai/Vietnamese Model of Biomass Towns look like?

- **Where** is the target region of the model Biomass Town? What would an effective project location/boundary be & why?
 - **What** are the major technology and raw material of the projects that are proposed to be implemented at the Model Biomass Towns? **What** are the significant benefits as a result of this project?
 - **How** will the project be implemented? What is the business model and framework?
 - **Who** are the key players? i.e. Leader, project implementer (municipal government, industry, etc), key community members
-

2. Discussion <2>

What are the required steps?

- Within the Japanese Biomass Town creation process, which steps may be easily completed in Thailand/Vietnam?
 - Within the Japanese Biomass Town creation process, which steps may be challenging to be completed in Thailand/Vietnam?
 - For the challenging steps, what are the alternatives/solutions?
-

3. Sharing

- Share each countries' tentative visions

4. Planning

- Considering the requirements of the projects and general process of drafting the Biomass Town Plan. what would the ideal schedule look like to formulate the Biomass Town Plan in Thailand and Vietnam? (Please fill in the worksheet)
